

HOUSE PAIRS

Age: 8-12

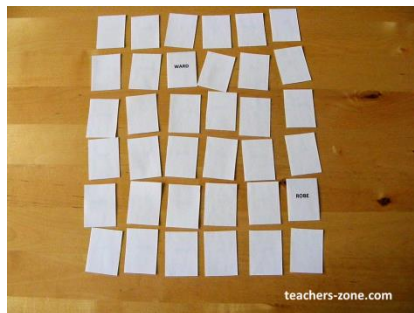

Language focus:

- rooms and furniture vocabulary (*kitchen, bathroom, basement, attic, garage, living room, study, bedroom, armchair, cooker, desk, washbasin, wardrobe, table, cupboard, fridge, sofa, bookcase*)
- sentence formation

Materials: a set of cards for each group (click [here](#) to download the cards)

Procedure:

1. Divide the class into groups three or four.
2. Give each group a set of cards.
3. Students put the cards face down on the desk.
4. Students turn over two cards in turn.

5. If the cards match, they form a sentence with the word (for example, ARM+CHAIR: *There is an armchair in the living room.*). If the sentence is correct, they keep the cards as a point.
6. If the cards do not match or the sentence is incorrect, the student flips the cards face down again and the next student has a go.
7. The winner is the player with the most cards at the end of the game.

Teaching tips:

- You can cut out the cards before the lesson and laminate them or ask the students to do it before the game.
- With younger students you can omit sentence formation and ask them to pronounce the word correctly each time they find a pair.
