

WRITING ON THE BACK

Age: 8-12

Language focus: spelling words

Materials: none

Procedure:

1. Students work in pairs.
2. One student in each pair writes a word on his/her partner's back with the finger.
3. The other student tries to guess the word. If he/she does, he/she will write on his/her partner's back.

Teaching tips:

- You make the activity simpler if you limit the vocabulary (write some words on the board or give students a category of vocabulary, ex. colours, numbers, animals, vegetables, toys, means of transport etc.)
